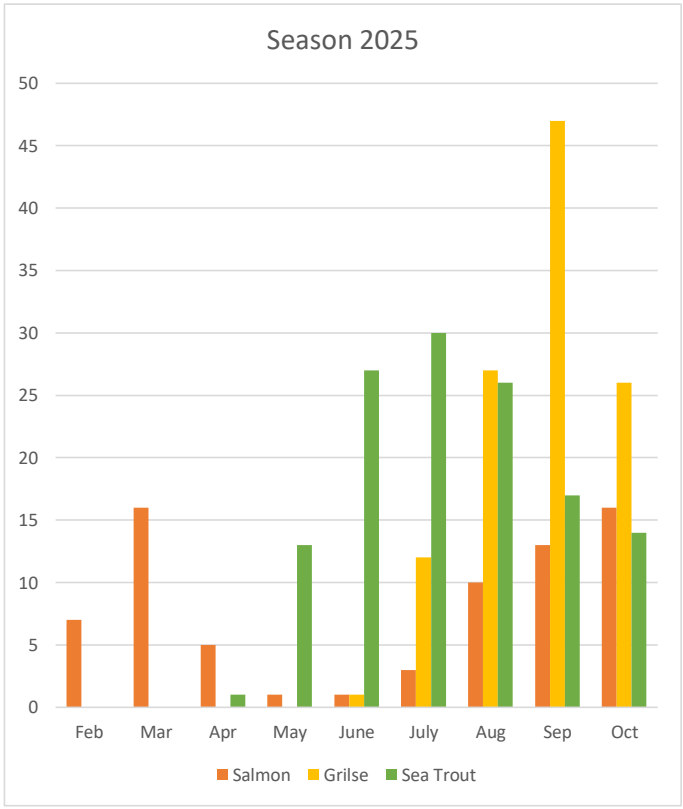
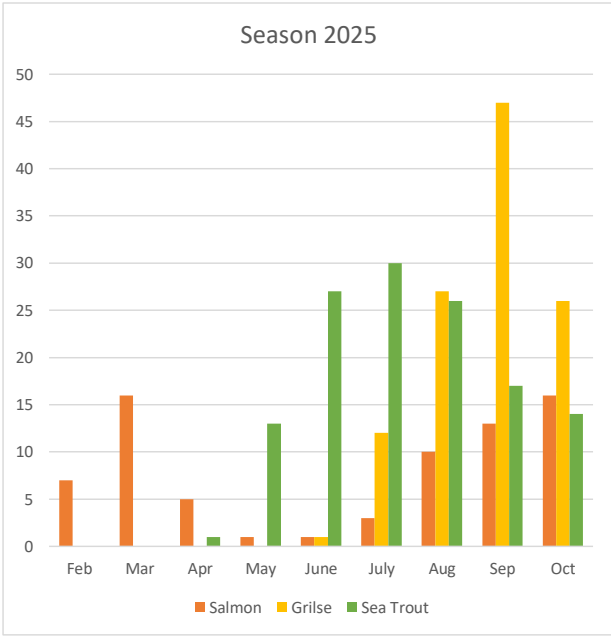
PERT FISHINGS LTD

Week 1	
Week 2	
Week 3 **17-02-24 to 22-02-24**	Caught this week Salmon = 4 Grilse = 0 Sea Trout = 0 Not a bad start to the season, 4 fish for the week. Opening day on the 17th saw 2 fish caught, a 16lber from the Luther pool for Mr N Kinnell from Kelty and a 9lb fish for Mr G Smith from Carron. There was a fish each for Mr G Donaldson from Ayrshire and Mr P Wormald from Bridge of Weir, 12lb and 7lb respectively from Weir pool and Blue Stone. Theres been a lot of rain over the weekend so the river might be a bit high on Monday but hopefully should be fishable.
Week 4 **24-02-25 to 01-03-25**	Salmon = 3 Grilse = 0 Sea Trout = 0 3 Fish this week a nice 14lb Salmon caught at Bridges by Mr A Aworeh from Alford, a 10lb Salmon from Blue Stone on a Willie Gunn for Mr D Grant from Hamilton and a 7lb Salmon from the Luther pool for Mr C Martin from Airth Falkirk. Conditions at the moment are quite mild with the river at a nice level so the chances of a springer are good.

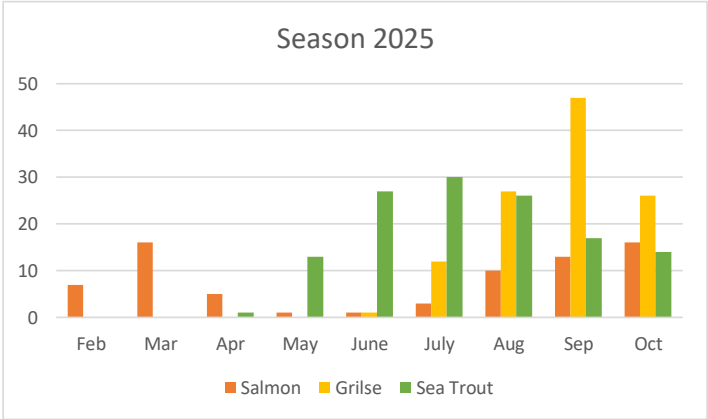


Week 1 **03-03-25** **to** **08-03-25**	Caught this week Salmon = 7 Grilse = 0 Sea Trout = 0 7 fish this week even though the river is fairly low we are averaging a fish per day. Biggest Salmon fell to Mr G Griffon from Stonehouse 13-1/2lbs from the Luther pool. Mr P Wormald from Bridge of Weir had a 6lb fish from Upper Bridges on a Willie Gunn while Mr B Jolly also from Bridge of Weir had a 12lb fish from the Boat pool Mr D Scott, Mr A Rossi and Mr S Connally all had fish of 9lbs from the Boat pool and Bridges. Lastly Mr R Cano had a fish of 8lbs also from Bridges. Spinning is the favoured method at the moment in the deeper pools with the Flying C being the best lure.	
# **Week 2** **10-03-25** **to** **15-03-25**	Caught this week Salmon 1 Grilse 0 Sea Trout 0 Poor week this week with only one fish caught. Mr I MacDonald from London took a 9lb fish at the Boat pool on a Willie Gunn. Not many fish about at the moment, the low water conditions are not helping. We've had no significant rain for a few weeks now and some fresh influx is needed to kick start some fresh fish into the system in other words pray for rain.	
Week 3 **17-03-25** **to** **22-03-25**	Caught this week Salmon 0 Grilse 0 Sea Trout 0 Well its not been a good week on Pert, zero fish for the week which is a bit of a bummer but funnily enough last year at this time it was a similar scenario. In 2024 returns for March recorded 1 fish for the first week, 4 fish for the second week and then a complete change with 14 fish for the 3rd week. This year its been 7, 1 and 0 hopefully a big run of fish is due. We live in hope, but realistically the river needs a good spate to freshen things up.	
Week 4 **24-03-25** **to** **29-03-25**	Caught this week Salmon 7 Grilse 0 Sea Trout 0 Better week this week, its amazing what a wee bit of rain can do. 7 Fish for the week with some notable catches. Mr C Hood from Lesmahago using a Blue/Orange Tube had a 12lb fish from the Luther pool and Mr T McLeary from Perth had a 4lb Salmon on a Red Francis from the Weir pool and a 9lb Salmon from Lower Weir, Mr S McLeary from Germany had a 10lb fish from the Boat pool. Mr G McKinlay from Huntly had 2 fish one at 8lbs from the Boat pool and one at 14lbs from Upper Weir. Last but not least Mr S McAuly from Balloch had a 10lb fish from the Boat pool. There is no rain forecast for the coming week but there seems to be a fair head of fish in the system.	



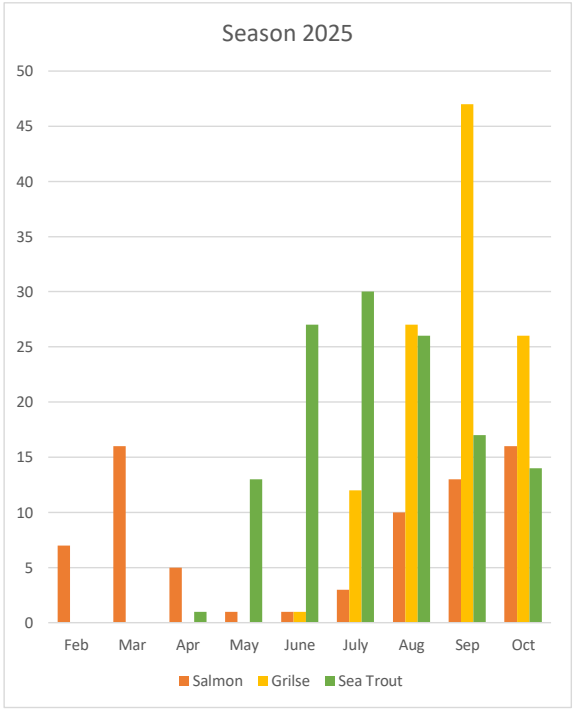
PERT FISHINGS LTD

Week 1 **31-03-25 to 05-04-25**	Caught this week Salmon = 2 Grilse = 0 Sea Trout = 0 Low water again for most of this week equals low returns. Only two fish this week a 12lb fish caught by Mr D Kennan from Largs at the Luther pool and an 11lb fish caught by Mr C White also from Ayrshire at Bridges. Bright sunshine and low water certainly effects the fishing and there is no change in sight for the coming week.
Week 2 **07-04-25 to 12-04-25**	Caught this week Salmon = 0 Grilse = 0 Sea Trout = 0 Again this past week there has been low water, no rain and bright sunshine making conditions very difficult. Couple of fish have been hooked but no fish landed for the week. The forecast is for rain for the next few days but we really need a good deluge to freshen up the water and bring fresh fish into the system.
Week 3 **14-04-25 to 19-04-25**	Caught this week Salmon = 0 Grilse = 0 Sea Trout = 0 No change in conditions i'm afraid and only 1 fish caught all week. Mr J Fitsimmons from Falkirk took a 6lb fish from the Luther pool on Monday the 14th, the rest of the week was fishless and i'm afraid its down to the conditions. Very low water for the time of year, there are reports of fish waiting for the right conditions to start making their way into the river but the weather forecast is still not favourable.
Week 4 **21-04-25 to 26-04-25**	Caught this week Salmon = 1 Grilse = 0 Sea Trout = 1 Very poor week again on Pert, I keep saying it but weather conditions are the problem with very low water bright sun and little sign of any improvement in the coming week. Sorry to be the bearer of bad news again. Only 2 fish caught this week a 7lb Salmon from the Weir pool caught on a Hitch fly by Mr G Wyllie from Kirriemuir and the first Sea trout of the season again off the Weir pool a 2lb fish caught by Mr B Jolly from Bridge of Weir.

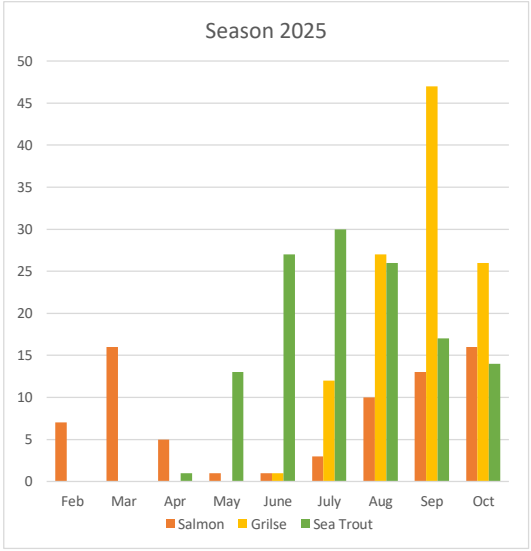


PERT FISHINGS LTD

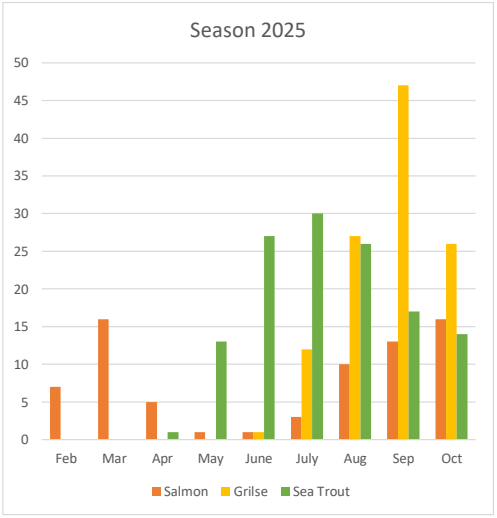
Week 1 **28-04-25** **to** **03-05-25**	Caught this week Salmon = 3 Grilse = 0 Sea Trout = 1 No change in conditions but the odd fish are making their way into the beat. 3 Salmon and a Sea trout for the week. Mr P West from Derbyshire had a 2 nice fish from Upper Weir on a Nymph one at 12lbs and one at 8lbs. Mr G Luke from East Kilbride had a 2-1/2lb fish on a Willie Gunn at Upper Bridges and Mr N Braskovich from Warrington took a 2lb Sea trout from the Luther pool. Outlook weatherwise is much the same with no rain in sight and temperatures slowly rising through the week.
Week 2 **05-05-25** **to** **10-05-25**	Caught this week Salmon = 0 Grilse = 0 Sea Trout = 0 Blank week again on Pert, obviously the conditions are against any fish being caught with very low water and bright sunshine all week and no change in sight. There was one Sea trout hooked and lost which just about sums it up.
Week 3 **12-05-25** **to** **17-05-25**	Caught this week Salmon = 0 Grilse = 0 Sea Trout = 2 No good news to report i'm afraid there has been no change in the weather and the river is still very low. But its not all doom and gloom, there were 2 Sea trout caught for the week one by Mr M Dickinson and one by Mrs M Dickinson from Wales both were around the 2lb mark from the Luther pool and Boat pool.
Week 4 **19-05-25** **to** **24-05-25**	Caught this week Salmon = 0 Grilse = 0 Sea Trout = 6 No change in conditions and there is no expectation of much needed rain. The only fishing undertaken this week was evening fishing for Sea trout they at least have started coming into the system. Mr P Thorp from Leicestershire and Mr I McWilliam from Derbyshire each had a 2lb Sea trout from the Luther pool while Mr A Wilson from Yorkshire had a 2lb Sea trout from the Boat pool. Master R McGhee from Forfar took a 2lb Sea trout on the Luther pool and Mr R McGhee took a 3-1/2lb and a 1-1/2lb Sea trout from the same pool. All 6 fish caught this week were taken on that old favourite the Teal/Blue and Silver.
Week 5 **27-05-25** **to** **01-06-25**	Caught this week Salmon = 0 Grilse = 0 Sea Trout = 4 No change in conditions and there is no expectation of enough much needed rain to make a difference to water levels. Only 4 Sea trout caught this week with a small Stoats tail being succesfull. All fish were between the 2 and 3 pound mark with Mr D Scott, Mr T McLeary, Mr M Cowel and Mr B Redd all catching a fish.



Week 1 **02-06-25** **to** **07-06-25**	Caught this week Salmon = 0 Grilse = 0 Sea Trout = 8 No good news to report im afraid there has been no great change in the weather with the river remaining very low please see the attached comment from the Esk District Fishery Board. Sea trout are still being caught though with 8 being returned this week again all are around the 2 to 3 pound mark and all but one being caught at the Boat pool the Luther pool produced the other. Mr A Atkins had 3, Mr N Lees had 2 and Mr H Henderson, Mr G Wyllie and Mr N Marshall had 1 each. There seems to be no prospect of any substantial rainfall to bring a run of Salmon into the system.
Week 2 **09-06-25** **to** **14-06-25**	Caught this week Salmon = 0 Grilse = 1 Sea Trout = 0 A wee rise in the water after some heavy rain saw the first Grilse of the season caught by Mr M Davis from Sheffield 2-1/2lbs from the Boat pool. Thats it for the week, very poor for this time of year. There hasn't been enough rain to make much difference to the water and i'm afraid there is no prospect of there being much in the coming week. Sorry to be Mr doom and gloom but sport can be had with the Sea trout at night, though thats not everyones cup of tea.
Week 3 **16-06-25** **to** **21-06-25**	Caught this week Salmon = 0 Grilse = 0 Sea Trout = 3 Still very low water and no sign of substantial rainfall to clean out the system and let the fish in. Just the odd Sea trout being caught Mr C Hood from Lesmahago made the best of it with 2 to 3lbs from the Boat pool Stoats tail and Bloody Butcher did the damage. Mr G Wyllie from Kirriemuir had a 2-1/2lb Sea trout again from the Boat pool on a Squirrel Blue. I wish i could report a change in conditions but we're not holding out much hope, rain is forecast for tuesday but i dont think there will be enough to make much difference to the water levels.
Week 4 **23-06-25** **to** **28-06-25**	Caught this week Salmon = 1 Grilse = 0 Sea Trout = 16 16 Sea trout and 1 Salmon for the week makes for better reading. At least the Sea trout run seems to have started in earnest and they're managing to navigate a river which is still very low. Good fishing was had with some big catches. Mr A Atkins from Granton on Spey had a great few days catching 9 Sea trout to 4lbs every one taken at the Boat pool and all on a Micro Tube. Mr M Griffiths from Cheshire took the only Salmon of the week 13lbs from Lower Weir he also had a 4lb Sea trout from the Weir pool. Mr J Griffiths also had a 4lb Sea trout from the Luther pool. The best fly of the week was definately the Micro Tube which took 10 of the fish caught.



Week 1 **30-06-25 to 05-07-25**	Caught this week Salmon = 1 Grilse = 1 Sea Trout = 2 After a wee upsurge last week its turned a bit slow again only 1 Salmon, 1 Grilse and 2 Sea trout caught this week. Mr A Moodie from Stirling had a 5lb Salmon from Bridges. Mr C Miller also from Stirling took a 5lb Grilse from Bridges and a 3lb Sea trout from the Luther pool. Mr R McGhee from Forfar had a 2lb Sea trout from the Luther pool. Been very poor so far this season lets hope the next 4 months see an improvement.
Week 2 **07-07-25 to 12-07-25**	Caught this week Salmon = 1 Grilse = 0 Sea Trout = 8 8 Sea trout and 1 Salmon for the week . At least the Sea trout run continues. Mr C McKerry from Dumbarton caught the Salmon, a 10lb fish from the Boat pool on a Black and Red tube. A notable catch was a 5lb Sea trout also from the Boat pool on a Blue Stoat by Mr B Thomson also from Dumbarton. Mr A Atkins from Granton on Spey had a couple of Sea trout to 2-1/2lbs and Mr R McGhee from Forfar had 3 Sea trout from the Boat pool 2 on a Muddler and 1 on a Micro tube. Rain forecast for the coming week but i doubt it will make much difference to the river levels.
Week 3 **14-07-25 to 19-07-25**	Caught this week Salmon = 0 Grilse = 0 Sea Trout = 12 12 Sea trout for the week and all caught on the same day. Mr J Watson from Ayrshire had 9 fish to 3lbs all on the Comet Fly and all from the Boat pool while Mr R Gackin from Glasgow had 3 Sea trout to 2-1/2lbs also on the Comet fly and from the Boat pool, except one which was from Blue Stone. I predict next week will see a change in fortunes. There was heavy rain on Saturday night 19th and on Sunday the rivers were in spate and should be fineing down by Monday. Hopefully there will be fish offshore taking full advantage and there will be a run of fresh fish in the system at the start of next week, fingers crossed.
Week 4 **21-07-25 to 26-07-25**	Caught this week Salmon = 1 Grilse = 3 Sea Trout = 3 Returns Update 1 Salmon 3 Grilse and 3 Sea trout for the week. The run of fish after last weeks rain and rise in water did not materialise, the river is back to what it was in previous weeks i'm begining to suspect that the lack of fish is due to the storms we had a couple of years ago which must have washed out the redds. Mr A Atkins from Granton on Spey had a Grilse to 5lbs one on a Hat Trick Shrimp and a 4-1/2lb Sea trout on a Kylie Shrimp. Mr D Adams from Birmingham had a Grilse of 4lbs on a Cascade from Dovecot. Mr P Webster and Mr N McRossan had Sea trout to 3lbs and Mr S Murray had a Grilse of 3lbs. Needle Fly, Muddler and Cascade did the business. Mr A Atkins took a 4-1/2lb fish from the Boat pool on a Hat Trick Shrimp. Prospects are much the same with Sea trout and Grilse there to be caught but fishing at the right time of day improves your chances.



Week 1 **28-07-25** **to** **02-08-25**	Caught this week Salmon = Grilse = 9 Sea Trout = 19 Fishing certainly picked up this week. 9 Grilse, 16 Sea trout but no sign salmon which is a concern. Local rod Mr G Smith from St Cyrus had 2 Grilse both of 4lbs on a Pert Shrimp, Mr L Cowell from Alnwick had a Grilse to 5lbs from the Boat pool and a 3-1/2lb Sea trout from Blue Stone while Mr M Cowell had a 6lb Grilse on a Cascade from Blue Stone. Mr C Hood from Lesmahago had a 5lb Grilse and 2 Sea trout to 3lbs from the Boat pool all on a Sunray ShadowMr J Watson from Ayrshire had a terrific day catching 9 Sea trout to 4lbs mainly from the Boat pool and on the Invictor, Micro tube and Peter Ross, Mr C Ingles from Clydebank had a 5lb Grilse from the Boat pool. Sorry if i haven't mentioned everyone but space is at a premium. Going to be a stormy and windy week ahead so hopefully we'll see some long overdue Salmon coming in to the system.	Week 2 **04-08-25** **to** **09-08-25**	Caught this week Salmon = 2 Grilse = 9 Sea Trout = 2 Sorry for the late report but i've been on holiday for a week. Grilse are starting to appear now with a bit more water in the river. Mr C McFarlane from Wemyes Bay had 2 Grilse to 5lbs from Bridges and the Boat pool while Mr H Mills from Renfrew had a nice 4lb and 6lb Grilse on a Pert Shrimp from the Boat pool as did Mr K Lynch who had a 5lb and 4lb Grilse using a Cascade Mr Lynch also had a 3lb Grilse from Lower Weir and a 7lb Salmon from Upper Weir. Mr M Stewart had an 8lb Salmon from the Luther pool. In all there were 2 Salmon, 9 Grilse and 2 Sea trout for the week.	
Week 3 **11-08-25** **to** **16-08-25**	Caught this week Salmon = 2 Grilse = 9 Sea Trout = 4 Again apologies for the late report. 2 Salmon, 9 Grilse and 4 Sea trout this week. A cracking Sea trout of 9lbs was caught on the Boat pool by Mr A Rossi from Falkirk and a 14lb Salmon was taken on Upper Weir by Mr N Lees from Surry. Mr J Fitsimmons from Falkirk had 2 Grilse to 6lbs and a 3lb Sea trout. Mr A Atkins from Granton on Spey had a 4lb Grilse from Bridges on a Hat Trick Shrimp and a 2-1/2lb Sea trout from the Boat pool. Mr R Vozza from Glasgow took an 8lb Salmon at the Boat pool. There are plenty of fish in the system and they are hard to tempt we really need heavy rain to wash out the river and bring in the big back end Salmon.	
Week 4 **18-08-25** **to** **23-08-25**	Caught this week Salmon = 1 Grilse = 3 Sea Trout = 2 Not a very good week on Pert. 1 Salmon, 3 Grilse and 2 Sea trout for the week. Mr T McDowell from Cumbria had the only Salmon which he took at the Boat pool on a Hitch fly he also had a 3lb Grise on a Silver Stoat. Mr D Scott from Ayrshire had a 4lb and 6lb Grilse from Bridges. Mr J Murray from Ayreshire had a 4lb Sea trout on a Silver Stoat from the Boat pool and Mr D Burgoyne also from Ayreshire had a 3lb Sea trout also from the Boat pool. For comparison last year 2 Salmon, 21 Grilse and 13 Sea trout were taken in the corresponding week, no doubt conditions have a lot to do with the fall in catches and perhaps the storms of recent years lets hope its just a blip.	
Week 5 **25-08-25** **to** **30-08-25**	Caught this week Salmon = 5 Grilse = 5 Sea Trout = 4 Little bit better this week with 5 Salmon, 5 Grilse and 4 Sea trout landed. Mr J Harkness from Perthshire had a great day catching a 7lb Salmon, 2 Grilse to 4lbs and a Sea trout of 3-1/2lbs all from the Boat pool using a Munro Killer. Mr J Fitsimmons from Falkirk hadan 8lb Salmon from Lower Weir and a 4-1/2lb Grilse from Blue Stone. Mr S Cranford from Stirling had a 5lb Grilse on a Cascade at the Luther pool. A rise in water over the weekend should see more fish coming in to the system so porospects are looking good.	

Week 1 **01-09-25 to 06-09-25**	Caught this week Salmon = 0 Grilse = 10 Sea Trout = 2 Better week on Pert, 10 Grilse and 3 Sea trout for the week. Mr R Euart from Falkirk, Mr N Marshall from Callander and Mr D Summerfield from Stirling all had a Grilse between the 3lb and 5lb mark. Mr D Burgoyne from Ayreshire took 4 Grilse to 5lbs and a Sea trout of 3lbs from Upper Weir and the Boat pool. Mr J Murray from Dundonald had a 4lb Grilse and 2lb Sea trout while Mr C Coludn had 2 Grilse to 5lbs. Mr G Wyllie from Kirriemuir had3-1/2 lb Sea trout from Blue Stone. Water levels are still very low but there is rain forecast for the end of the week which might raise the levels and encourage fresh fish into the system.	
Week 2 **08-09-25 to 13-09-25**	Caught this week Salmon = 5 Grilse = 10 Sea Trout = 4 Picking up now after heavy rain and a good rise in water levels in midweek. 5 Salmon, 10 Grilse and 4 Sea trout for the week. Biggest Salmon was 8lbs of which there were 3 caught by Mr B McLean from Glasgow Mr S Guzik from Alloa and Mr C Gorman from Ayrshire. Finally Mr C MacDonald from Banchory had a 4lb Grilse. Fish are spread throughout the system and the water is at a decent hight so prospects are good.	
Week 3 **15-09-25 to 20-09-25**	Caught this week Salmon = 5 Grilse = 22 Sea Trout = 10 Fishing is really picking up at last. 5 Salmon, 22 Grilse and 10 Sea trout for the week, too many to mention individually so i've recorded the highlights for the week. Mr J Watson from Ayreshire had a cracking week with a 7lb Salmon a 5lb and 6lb Grilse and 3 Sea trout. Mr J Murray also from Ayreshire had 2 Salmon to 12lbs and 2 Grilse to 6lbs. Week 1 **29-09-25** **to** **04-10-25**	Caught this week Salmon = 4 Grilse = 7 Sea Trout = 8 Fishing is picking up a wee bit 4 Salmon, 7 Grilse and 8 Sea trout for the week. Mr G Donaldson from Ayrshire had the biggest fish of the week at 10lbs along with a 4lb Grilse and 2-1/2lb Sea trout all from Upper Stobb. River levels have fropped back again and no significant rain is forecast. Late inclusion and my apologies to Mr S Creasey from Ipswich who I inadvertantly missed from this return, he had a 15lb fish from Lower Bridges on a Cascade Tube.	
Week 3 **13-10-25** **to** **18-10-25**	Caught this week Salmon = 3 Grilse = 14 Sea Trout = 0 3 Salmon and 14 Grilse this week and no Sea trout which is unusual.
